President Of Hungary Quits Post Suddenly

Peasant Party Leader Dr. Zoltan Tildy Resigns—Sudden Government Crisis

COUNT KAROLYI MAY BE NAMED

(BULLETIN)
BUDAPEST, July 30.—(INS)—Peasant party leader Dr. Zoltan Tildy resigned as president of Hungary in a sudden government crisis today.

Tildy's resignation was the direct result of the arrest of his son-in-law Victor Csorok by Hungarian security police.

Csorok was accused of felony and high treason.

The resignation of Tildy was not unexpected.

Not In Accord With Reds

Although he had made an agreement with the Communist leaders of Hungary by which he became president of the country, his views were not entirely in accord with the Red regime.

His ultimate replacement by a 100-per-cent Communist long has been anticipated.

The situation in Hungary has been linked to that of Czechoslovakia preceding the recent resignation of President Eduard Benes.

Benes was succeeded as chief executive by Klement Gottwald, former premier, who is a leading Communist.

Events Leading Up To Tildy's sudden step-down were set in motion (Continued on Page Two)

Pa News Observes

Rather an unusual sight was witnessed on a farm between Mt. Jackson and Knox Valley Thursday evening. A farmer was using a four-horse hitch to haul a machine that was cutting oats in the field.

Iowa corn better look to its laurels. Some of the fields in Lawrence county at the present time will hold their own with any corn in the nation, Pa. News opinion.

Motorists are being warned to travel with caution in the vicinity of Knox Valley at a bridge over the Little Beaver river on the Mt. Jackson-Knox road. Warning signs have been erected pointing out the rough pavement. Plans are being made to replace the structure sometime in the future when the highway department is able to let contracts for the work.

Numerous wild and domestic animals are meeting their doom on local highways. Pa. News discovers. Traveling in from North Beaver township early this morning, several animals were discovered lying on the highway having met death by being struck by vehicles. Rabbits, playing along the roadway, flirting with death, were quite noticeable.

Apple butter made from apples grown right in Lawrence county will grace the tables of cities throughout the nation this fall, Pa. News is told. A survey was being made on Thursday by a company which makes about 80 per cent of the nation's apple butter to ascertain how much of the county crop it could depend on.

Well, we've heard of the three, four and five leaf clover, but here comes the six-leaf clover. Found by Evelyn Greff of Pottsville in her back yard, she reported that a certain stalk had produced in the past season of four and five-leaf clover, and just the other day she found the six-leaf clover. Always interested in flowers and greens, Evelyn continued to look at the clover plant every week, and was successful in finding the six-leaf clover.

Dixiecrats May Gain Democratic Congress Control

Such Is Prospect Held By House Speaker Martin; Sees More G.O.P. Gains

WASHINGTON, July 30.—Senate Dixiecrats coasted into their second day of lackadaisical filibuster today with no roadblocks in sight.

GOP policy chairman Taft (R), Ohio, said the majority leadership will do nothing to try to stop the talk marathon this week. There will be no night sessions, he said, and no Saturday meeting.

In its first easy-going 4 hours and 15 minutes of the opening day, the filibuster got a push from a Republican, Sen. Jenner (R), Ind., who rose to challenge President Truman's demand for controls as inconsistent with his agriculture department's food policies. Jenner demanded a Senate investigation.

Sen. Stewart (D), Tenn., who took the filibuster back to its assault on President Truman's civil rights program when Jenner ended his speech, held the floor for today's session.

Taft indicated that Republicans will not hesitate to speak during the next few days even if it gives unintentional aid to the filibuster—and that he might speak himself today on President Truman's economic policies.

London Reports Are Cause Of Annoyance

By JOHN A. REICHMANN
(L. N. S. Staff Correspondent)

WASHINGTON, July 30.—Reports from London that the western allies have decided how to deal with the Kremlin caused frank annoyance in official Washington circles today.

These reports were said to be "half true and half false." They have asserted as a fact what is regarded in many quarters as only what the British would like to promote. Principal conjectures from London have been that there will be a meeting of the big four coun-

cil of foreign ministers to discuss all points of difference between the east and west.

Pledge of Silence

But officials here, observing a pledge of silence entered into with the British and French, still will not declare where the truth ends and falsification begins.

Their position is explained by the assertion that they believe the situation regarding Berlin is so delicate that a wrong word might upset it. Moreover, they feel that

Epidemic Of Beards Has Developed In Grove City

To your stock of similes you can add this one: "As quiet as a Grove City barber shop."

Right now there are more "eager beavers" in Grove City than you would expect to find at a log chewing contest at a beaver dam. Sedate business men who wouldn't be caught on a desert with "o'clock shadow" are bearded and mustached with styles running the gamut from "Dunderbears" and "spades" to an over all set of illiac that flap in the summer breeze like a curtain.

The sudden upsurge in hirsute adornment is all a part of the Grove City Sequenctennial plans and from now until the Sequel takes place August 22-28 the men of distinction in Grove City are bearded.

Celebrate Next Month

The town was founded a century and a half ago and the celebration next month marks that auspicious date. It is to be assumed that the pioneers of Grove City were bearded, probably because the safety razor hadn't been invented. Grove City men are turning back

Bernadotte To Make Tour In Peace Effort

LAKE SUCCESS, N. Y., July 30.—(INS)—Count Folke Bernadotte announced today that he will begin a tour of Arab capitals and Israel Sunday to sound out basic principles of a Palestine peace plan.

The mediator gave United Nations officials no hint on the nature of the new blueprint for solving the Holy Land dispute.

According to the present plans, the peace tour will last a week. Immediately afterwards the mediator plans to proceed to his native Sweden to take part in a meeting of the International Red Cross.

He disclosed to U. N. that on his return to Rhodes from Sweden, he will strive to round out his peace plan and whip it into shape for possible approval by the Arabs and Jews.

The mediator asked and received consent of the U. N. top officials to proceed to Paris personally in September for presentation of the Palestine situation to the general assembly.

Ten Nations In Danube Parley

MEET AT BELGRADE TO CONSIDER FREEDOM OF NAVIGATION ON DANUBE RIVER

BRIGADE, July 30.—(INS)—A 10-nation conference to consider freedom of navigation on the Danube convenes today in Belgrade.

Delegates of the Big Three Western Powers are heavily outnumbered by seven nations of the Soviet bloc.

The delegates of the United States, Britain and France are attending the parley with little hope that it will lead to any satisfactory agreement concerning free navigation on the river which is virtually Soviet-controlled.

They look to the conference chiefly as a bargaining post as to whether Russia wishes to display a more conciliatory attitude toward the west.

A major point of interest is that the conference will provide the first test of relations between the majority of Soviet bloc nations and Yugoslavia since the communist denunciation of Yugoslav Communist leadership.

Truman Makes New Appeal For Price Reduction

Warns That Economic "Bust" May Be Alternative On Failure To Act

CAN SEE NO ROOM FOR COMPLACENCY

By ROBERT G. DIXON
(L. N. S. Staff Correspondent)

WASHINGTON, July 30.—President Truman made a second strong appeal to congress today for authority to bring down high prices, warning that economic "bust" might be the alternative.

The chief executive made his appeal in a mid-year economic report, which he submitted to the congress to back up his demands for price and wage controls in his special message of Tuesday.

The president's mid-year report gave a glowing account of present day high production, high revenues and peak employment, but it also pointed out that consumer prices have now reached an all-time high and that consumer purchasing ability is fast disappearing.

Warns of "Bust"

The president warned that a "bust" may follow the boom unless governmental steps are authorized by congress and, then are taken to control "the dangers that we face."

"The facts add up to a clear and disconcerting conclusion. In spite of some favorable factors, we are in the very midst of

Tornado Strikes Wisconsin Farm

Girl Is Killed And 11 Members Of Family Hurt In Swift Striking Storm

MADISON, Wis., July 30.—(INS)—A swift-striking tornado that swooped down on a lonely farm house near Madison left a 10-year-old girl dead today and 11 members of her family injured.

The victim of last night's twister was Lucille Ballweg, who died shortly after she was brought to a Madison hospital where attendants said a splinter 3½ inches in circumference had been driven thru her brain.

Saw Storm Coming

Her parents, Mr. and Mrs. Frank Ballweg, and nine of their 13 children were injured. They were taken to two Madison hospitals where they were reported recovering.

Three of the children were not at home when the tornado struck.

Ballweg said he saw the twister coming and warned his family to run for the cellar, but the tornado struck before any of them had reached safety.

Their home and all but one of the outbuildings on the Ballweg farm were destroyed.

A four-wheel trailer in the yard of the Ballweg farm was found a half-mile away.

REPORT 33 KILLED

SINGAPORE, July 30.—(INS)—British troops and police were reported today to have killed 33 insurgents and captured 20 others in their campaign against Communist forces in central Malaya.

The action in the Baturang district, 25 miles northwest of Kuala Lumpur, was described as the biggest success yet in the anti-Communist drive.

There was no military or police casualties.

Bessemer Community Show Scores Great Hit

Pictures On Pages 2-15

"Fund For You" community show, sponsored by the American Legion Earl J. Watt Post 368, was pronounced a huge success by the opening crowd which attended its opening night performance Thursday evening in the Bessemer high school auditorium, Bessemer.

Before Legion Hall Fund

Proceeds from the three nights of entertainment will go in a fund for the erection of an American Legion hall. The hall, which will be erected on Pollock avenue in Bessemer, will serve members of the Earl J. Watt Post 368, which includes the following areas: Edenburg, Mt. Jackson, Knox Valley, Bessemer, Hillsville, Carbon and New Springfield, Petersburg and Middletown in Ohio. Post commander is William Seitzer of Mt. Jackson.

The cast of 150 persons, all local, received many ovations, and their most humorous scenes "brought the house down."

Enthusiastically Received

The two-hour show, which will be presented on Friday and Saturday nights also, was enthusiastically received by the crowd. One of the outstanding laugh features was the parade of "glamour gals."

Dorothy Lamour, whom even a sarong couldn't have made glamorous last night, seemed to be particularly blonde and bony. She was none other than Bill Heidigger, Mae West, personified by Bud Davis, didn't get many whistles, but a lot of screams.

Other odd looking glamor gals turned out to be Gravel Gerty by the name of Lloyd Crawford, and Gipsy Rose Lee, Sam Gibson.

Popular features with the audience were "unprecedented."

U.S. May Send More Bombers To Europe Soon

WASHINGTON, July 30.—(INS)—The air force indicated today that even more B-29 Superfortresses may soon be sent to Europe.

At the same time the USAF displayed its intention to keep the big bombers—90 of them—are in England and Germany now—overseas indefinitely.

The indications were emphasized by appointment of Maj. Gen. Leon W. Johnson, head of the 15th Air Force, as commander of the 60 B-29s in England on what the USAF calls a "routine training mission."

An air force spokesman said that both Johnson's appointment and the number of ships "training" in Europe were "unprecedented."

Other air and military observers viewed Johnson's appointment as "highly significant." One said:

"It is evident from Johnson's assignment that the air force attaches a great deal of importance to these so-called 'training missions' and soon intends to augment their strength as a show of force for Russia's benefit."

"The move also seems to indicate that the 'training missions' may become more permanent than was at first intended."

Small Boy Escapes Serious Injury In 30-Foot Bridge Fall

Five-and-a-half-year-old Paul Shaffie Jr., son of Mr. and Mrs. Paul Shaffie, of R. D. 1, Albion avenue, luckily escaped serious injury when he was pushed off the East New Castle bridge Thursday evening, falling approximately 30 feet.

According to the parents, little Paul was watching the workers who are excavating for the new road, and was pushed off the bridge by a companion.

He is confined in the New Castle hospital, where he is under observation. X-ray pictures do not reveal any fractures at the present time.

Strangles Wife, Then Hangs Self

PITTSBURGH, July 30.—(INS)—A Pittsburgh mother of ten was strangled and her unemployed husband hanged himself today while their family slept.

Police said Edward R. Pfisterer, 48, strangled his wife, Mrs. Anna B. Pfisterer, 41, with a bath towel, then hanged himself to a door.

Police said the couple had been quarrelling last night, according to neighbors.

Dixiecrats In Senate Keep Up Filibuster

(BULLETIN)

WASHINGTON, July 30.—(INS)—Southern senators resumed their anti-post tax filibuster after noon today with no sign of opposition and the promise of a restful week-end ahead.

As the senate convened, Acting Majority Leader Wherry (R) Neb., formally announced that there would be no Saturday session. The senate will recon tonight until Monday noon.

WASHINGTON, July 30.—(INS)—President Truman faced the possibility today that rebellious Dixiecrats may control the Democratic party in Congress next year.

That was the prospect raised by House Speaker Martin (R) Mass., who intimated his belief that northern Democrats might find themselves next year stripped of the position they now hold as the official minority party in Congress.

This was based on his assumption that the Republicans would retain control of Congress in the November election. Southerners are now in a majority in both Houses among the Democrats.

Seen G.O.P. Gains

Martin forecast a gain of 30 to 35 in the GOP membership in the Senate.

Democrats have lost the American Labor Party's support.

Rep. Leonard W. Hall (R) N. Y., chairman of the House Republican Congressional Committee, predicted a gain of 25 to 30 members in the fall election. Martin said he was expressing a "conservative estimate."

The speaker declined to estimate how many seats the Progressive party of Henry A. Wallace might win in the House, but stated that "they're going to have more than they have now."

Berlin Police Chief Battle Is Continuing

BERLIN, July 30.—Suspension of Berlin's Communist police chief by the German city council was termed illegal today by the Soviet commandant.

Russian Maj. Gen. Alexander Kolikov declared that therefore the suspension of Parul Markgraf as head of the police forces is not binding on the Soviet command.

The Russians are retaining Markgraf as head of the police force in their sector of the former German capital. Johannes Stumm has taken over as chief in the western sectors.

ADEN, July 30.—(INS)—Rescue crews announced today that they have recovered the bodies of 10 of the 17 U. S. Air Force men who perished in the crash of a B-29 in the sea near Aden.

Only one member of the 18-man crew of the plane, which was making a glide-girdling flight with two other Superfortresses, is known to have survived the disaster.

The other two planes continued on to Colombo, Ceylon, today after returning to Aden following the crash Tuesday night.

By JAMES L. KIRGALLIN
(L. N. S. Staff Correspondent)

NEW YORK, July 30.—President Truman will review the greatest peacetime airpower display in the nation's history tomorrow afternoon when he dedicates the New York International Airport in Idlewild, Queens.

The fastest army and navy jet planes and the newest and most powerful bombers, transports and gliders—500 aircraft in an impressive fashion—will be on view before the president and thousands of spectators.

Gov. Dewey To Be Present

Also conspicuous at the ceremonies will be the Republican presidential nominee—Governor Thomas E. Dewey of New York.

Dedication of the airport will mark the opening of a "new era" in "international air expansion," which will continue until and through Sunday, Aug. 8th. The new airport is a \$30,000,000 project.

Mr. Truman and Gov. Dewey will speak over a nation-wide radio hookup. Their addresses will be non-political.

Truman Takes Cruise On River

Prepares Address For Dedication Of Airport In New York Saturday

WASHINGTON, July 30.—(INS)—President Truman cruised on the Potomac river today as he prepared the address he will deliver in New York tomorrow at dedication of the Idlewild Airport.

Mr. Truman was accompanied by Capt. Robert L. Danahoe, his naval aide, boarded the presidential yacht Williamsburg late yesterday for the cruise down the river.

The president will be joined at 6 o'clock this afternoon by members of his staff.

After a daylight cruise, Mr. Truman will return to Washington at mid-morning tomorrow and will leave by plane for New York at 1:15 p. m. EDT.

The president will fly to Kansas City after watching the air show at the new airport, stopping off briefly in Washington enroute. He will be in Washington probably until next Thursday, and then to vote in the Democratic primary.

Young Bride Goes To Aid Police Fight

FRAMINGHAM, Mass., July 30.—(INS)—A bride of three weeks is on her way to Springfield, S. C., to lend nursing aid in the fight against polio.

Mrs. Jane Allison, 25, applied to the Red Cross and was accepted for service immediately.

Her husband, Henry A. Allison, 25, said: "She wanted to help. I offered no objections because it's what she wanted to do."

The Allison were married in her home town of Reading, Pa. July 16. He is a native of Mass.

When your waist is thin and your weight is right, and your shirt all fit and they're never tight, it makes no difference if it is hot, cool, never takes it off as not. But when summer hits and the temperature goes up, it is a day when it's almost impossible to wear that shirt that fits right in your hand, then the summer sun comes to melt you down, and your new shirt turns red and your neck turns brown. For it's common days just the like of these, and neither the old wife or the young wife, and he fans his brow and he gets his drink. He made some water, says I think.

Flying Saucers Will Be Visible

PITTSBURGH, July 30.—(INS)—Rub your little blue eyes and focus them on the heavens tonight, for the chances are good that you'll see one or more "flying saucers".

So advises Arthur L. Draper, director of the Buhl planetarium in Pittsburgh, who makes his living knowing about such things.

However, you won't really see a winged saucer. It will be a periscope.

"The chances," Draper said, "for seeing more flying saucers are very good—at least until Aug. 13."

"The periscope saucers will be flashing across the heavens daily until mid-August, and an exceptionally brilliant meteor could also create the impression of a fire-spouting space ship."

Coincidentally, the Buhl planetarium's current "show" features seven ways in which the world could come to an end—and one of them stars flying saucers.

ence is due from Washington at 2:15 p. m. As Mr. Truman steps onto the world's greatest commercial airport, a battery of 75mm. fieldpieces will sound off a 21-gun salute.

Dewey will arrive at the airport fifteen minutes ahead of the president. The New York Governor, will land at the airport after an 8-mile flight from LaGuardia airport.

Large Coverage

To cover the historical event, Grover A. Whalen, chairman of the mayor's committee for the city's golden jubilee and dedication of the airport, has handed out more than 1,000 credentials to reporters, photographers, newsmen, radio and television men.

Today runway "F" at the airport looked more like a country fair than an airstrip as workmen put the finishing touches to the aeronautical exhibits under a mile-long row of tents. The place was all decked out in carnival colors.

Due From Texas

New, fast military and commercial planes were dropping down from the skies. From all over the United States planes were on the wing toward the airport.

A formation of B-36's are due late today on a non-stop flight from Fort Worth, Texas, while the first four-jet bomber in the world—a B-45—was coming from Wright Field, Dayton, Ohio. One jet flew in last night from Dow Field in Maine, and others are on the air trails.

Before the nine-day exposition is over, planes from other nations will also be seen. The fleet air army of the Royal Navy is entering five officers and 28 enlisted men in the exposition. They will fly two "Seafires," two "Sea Hornets" and one "Sea Vampire."

The British team, commanded by Lieut. Commander D. B. Law, is training in Canada but will arrive in New York shortly.

TAKE PART IN BESSEMER SHOW

William Selmer, MC for "Fun For You," was caught by the News photographer cutting up at the plane with two lovely "song birds" from the show, during rehearsal for the Bessemer community performance. The girls are Mary Lou Montgomery and La Donna Carr. First nighters saw a first class show on Thursday evening. There will be two more evenings of the entertainment.

gathering inflationary forces, which day by day are imposing additional hardships upon countless families, and day by day are undermining the foundations of the remarkably high level of post war prosperity that we have thus far maintained.

No Room For Complacency

"The hard facts of today leave no room for complacency."

"Though most people are optimistic about the immediate business outlook, lasting prosperity is not assured. Even in the midst of the present prosperity, the average American sees that the value of his accumulated savings has declined, and that many of his neighbors, living on pensions or fixed salaries, are actually worse off than they were a year ago."

"We must be on our guard lest our national prosperity and security be undermined by inflation at home or by misery abroad."

Mr. Truman said that up to now "we have shown a blind disregard of the dangers that beset our path."

last week when Csornoky, 28, returned to Budapest after resigning as Hungarian minister to Cairo.

He was shot in the leg by a policeman when trying to leave his home. The charges against him by security police had raised tension throughout the country.

Treason allegations involving the family of the man who held the highest office in the state recalled to observers the dramatic series of events in Czechoslovakia early this year.

These culminated in the death of Foreign Minister Jan Masaryk, son of the late Thomas Garrigue Masaryk, founder of the Czechoslovak republic in what Communist officials called a suicide leap and in the resignation of Benes.

Karolyi May Succeed

The Hungarian cabinet met in special session immediately after Tildy's resignation. Discussion as to identify his successor as president centered around the name of Count Michael Karolyi.

Member of an old and aristocratic Hungarian family Count Karolyi now is Hungarian minister to Prague.

The resignation of Tildy came at a moment when Imre Nagy, Communist speaker of the Hungarian national assembly, and Gyula Sebek, Hungarian minister to Moscow, were both in Prague.

This coincidence was linked to the possible choice of Karolyi as Tildy's successor.

In it Kotikov served notice that the Soviets intend to back Markgraf to the hilt in his fight to retain his position as head of all Berlin police.

Markgraf at the same time renewed a previous threat of reprisals against any Berlin policemen who fail to comply with his orders.

The city assembly, defiant of Soviet attempts to rule Berlin singlehandedly, yesterday voted overwhelmingly to accept the city council's suspension of Markgraf.

the Russians, they feel, are the worst things that can happen.

No Fundamental Change

They also point out that there is no fundamental change in the situation from two weeks ago, when the last exchange of notes between the west and Moscow was published. At that time the Berlin problem was regarded as explosive.

The fact that the western allies took two weeks to decide on the next step was regarded as proof that the situation is so delicate that every precaution must be taken in seeking a peaceful settlement.

All that was actually decided at London, it is believed, was that the Kremlin should be sounded out to discover what, if possible, is in the minds of those who control Soviet destiny.

EPIDEMIC OF BEARDS IN GROVE CITY

the clock in the matter of facial draperies.

A walk down the business streets of Grove City will get you a look at home of the tastiest looking beards you ever saw. One lad looked as though he were peering through some shrubbery while in a number of cases you expected to see a rabbit jump out of the hedge any minute.

Prizes will be offered for the longest, the thickest, the curliest and probably the weirdest beards grown during the preparations for the sequel.

As for the young women of Grove City, they are taking the matter in stride. One of the young lovelies said the beards were ticklish affairs.

Brothers in Navy Meet First Time Since Pearl Harbor

Fred, Edmund and Henry Zapanik, This City, Have Two Weeks Reunion With Family

For the first time since Pearl Harbor Day, December 7, 1941, three local brothers, Fred, Edmund and Henry Zapanik, all serving with the U. S. Navy, returned to their home town for a reunion, which lasted two weeks.

Fred Zapanik, a chief ship fitter at Annapolis, Md., arrived here with his wife, Mrs. Ellen Zapanik and daughter. He has served in the U. S. Navy for 12½ years.

Edmund Zapanik, a chief moulder in U. S. Navy has concluded a two years' stay of duty in Guam. He and his wife, Ruth Zapanik, were here, prior to his departure for Washington, D. C., where he will receive his next assignment. He has been in service for 12 years.

Henry Zapanik, is a parachute rigger No. 3, stationed at Jacksonville, Fla., has already served for seven years.

The young men and their families spent a full two weeks here, and the various family members assembled with their own individual families, for one of the largest and enjoyable reunions held. The three brothers departed Thursday morning for their respective duties and assignments.

HUGE GOP VOTE IN WEST PREDICTED

WASHINGTON, July 30.—William F. Reuther, Republican campaign manager for California, predicted "huge majorities" for the Dewey-Warren ticket in California and other Pacific coast states.

He made the statement after a conference with Herbert Brownell, Jr., the Dewey-Warren campaign manager.

Brownell said the conference was to establish complete coordination between the campaigns conducted by the two GOP standard bearers.

Charlie McCarthy Wins Hat Bet On Waynesburg Rain
WAYNESBURG, Pa., July 30.—(INS)—Charlie McCarthy, the dummy, was richer by one hat today because rain failed to fall in Waynesburg yesterday as tradition would have it.

Lack of any visible precipitation in Waynesburg on July 29 marked the fifth time in 73 years that it has failed to rain in the college town on "Rain Day."

Officials even "cheated" a little and turned clocks to Eastern Standard Time in order to give the rain an extra hour to make up its mind to fall.

Attorney John Daily had bet his hat to Charlie McCarthy. Edgar Bergan's dummy, that it would rain. He lamented:

"We'll carve him one out of wood and send it to him. But I sure hate losing to a blockhead." The hat that Daily won from Bing Crosby on a similar bet last year was auctioned off yesterday proceeds going to a fund to build a swimming pool. It brought \$137 from Ollie Fox, a Waynesburg auto dealer.

MAY ENGAGED GIRL HAVE OTHER DATES

"My fiancé lives in another city and is able to be with me only during weekends and holidays. Is there any reason why I should not go to the movies or to lunch with other men friends during the week?"

Answer: If you mean should you accept dates with other men, the reply is no. And I think your fiancé would agree with my opinion.

If you desire a happy marriage do nothing that may now create a misunderstanding between you. Surely, if you are sufficiently in love with this man, you would be glad to remain faithful during the four or five nights a week when he cannot be with you.

What would your reaction be if you were to discover that he is going around with other girls? Could you take it?

Your fiancé, on the other hand cannot reasonably expect you to remain a social hermit during the time he is not in your vicinity. He should not complain if you occasionally go to a movie or party with a group of your friends even though the group includes an extra man.

An engaged girl is foolish if she is seen frequently in the company of a man other than her fiancé. Regardless of her innocence, she will be the subject of gossip that may ruin her future happiness. It isn't really worth the chance.

Question: I am going to be married at a somewhat informal home wedding, at which I shall wear a dinner dress and the groom his dinner jacket. Must the mothers of the bride and groom wear dinner clothes also?

Answer: Yes, the mothers of the bride and the groom should wear dinner clothes, as should the attendants, as well as the guests.

Present your problems to Miss Markel who will promptly send personal replies to questions from readers inclosing a stamped, addressed envelope.

According to his household records, George Washington paid as high as 18 cents apiece for pins.

Second Woman Agent For Soviet Spy Net Known

NEW YORK, July 30.—(INS)—The New York Journal-American said Thursday a second woman agent for the Soviet spy network is under investigation by the department of justice.

The newspaper said she entered the broadening picture of the Russian espionage ring as further details were disclosed of the career of Elizabeth T. Bentley. The paper added:

"The name of the second woman is known not only to the FBI but also to Rep. Thomas (R) N. J., chairman of the House Un-American Activities committee."

"Presumably, although Thomas did not commit himself directly, she will be called along with Miss Bentley, at the secret session of his committee and at the public hearing to follow."

To appear Saturday "Miss Bentley is to appear before the committee Saturday at an undisclosed place in New York."

"The initials of the second woman's name are H.G. and she is married. Her name is in the possession of this newspaper but it is being withheld so as not to interfere with the inquiry."

Homemakers Are Largest Group

WASHINGTON, July 30.—The nation's largest occupational group is its 32,000,000 homemakers, observes Dr. Hazel K. Stiebeling, chief of the Department of Agriculture's Bureau of Human Nutrition and Home Economics.

"Taken singly or as a group," she says, "these 32,000,000 women have a big job with big responsibilities. Collectively they spend billions of dollars a year for food, clothing, home furnishings and other goods and services that families use. When they buy intelligently they are helping shape the markets for better farm and other products. When they manage time, energy and goods efficiently, they are conserving the country's human and material resources."

"She is an Austrian in her thirties, and she worked closely with Gerhardt Eisler, the No. 1 agent for Stalin in the United States and the man identified as head of the ring that tried to steal the secrets of the atom bomb."

Eisler's sentence of a year in prison and a \$1,000 fine for contempt of Congress was upheld last month by the U. S. Court of Appeals.

Homemakers Are Largest Group

WASHINGTON, July 30.—The nation's largest occupational group is its 32,000,000 homemakers, observes Dr. Hazel K. Stiebeling, chief of the Department of Agriculture's Bureau of Human Nutrition and Home Economics.

"Taken singly or as a group," she says, "these 32,000,000 women have a big job with big responsibilities. Collectively they spend billions of dollars a year for food, clothing, home furnishings and other goods and services that families use. When they buy intelligently they are helping shape the markets for better farm and other products. When they manage time, energy and goods efficiently, they are conserving the country's human and material resources."

"She is an Austrian in her thirties, and she worked closely with Gerhardt Eisler, the No. 1 agent for Stalin in the United States and the man identified as head of the ring that tried to steal the secrets of the atom bomb."

Eisler's sentence of a year in prison and a \$1,000 fine for contempt of Congress was upheld last month by the U. S. Court of Appeals.

Variety Of Hobbies Were Displayed At George Washington

Handmade Toys Cap First Prize;
Miniature Railroad Receives
Special Mention

Variety was one of the things
which made the George Washing-
ton playground hobby show such
a huge success this year. The
hobby show was held Wednesday
afternoon, and attracted quite a
large crowd of visitors.
All sorts of hobbies were in
evidence, everything from mini-
ature railroads to bottle corks.
First prize went to Dave Turner,
who had an outstanding collection
of handmade toys.
Shirley Gibson captured second
prize with her collection of sea
shells and foreign money.
Third prize was awarded to Joyce
Thompson for her large collection
of glass slippers.
Most unusual of the collections
was that of Mark Slovansky. He
had a varied array of novelties on
a hat.
Prize for the largest collection
went to Bill Walters, for his collec-
tion of bottle caps.
Special mention was also given
to Bob Solomon, who presented in
the hobby show his collection of
miniature railroads.
Judges for the hobby show were
Mrs. Charles Jordan and Mrs.
George Meyer.

A private airplane (two miles to

And a package of the cookies

I forgot.

Naturally you can't use any of

Report Fighting Now in Progress in Southern Palestine

Israeli Forces From Offensive
Against Egyptian Armies
Of Breaching Trade

TEL AVIV, July 30.—(INS)—Israeli forces in southern Palestine pressed an offensive today against Egyptian forces accused by the Jews of breaching the Holy Land truce.

Full-scale fighting now is reported in regions where Israeli positions were subjected to what were described as non-stop attacks by Egyptian forces.

The Israelis charged the Egyptians with repeated truce breaches since the beginning of the week and then went over to the offensive.

Word of the fighting was released after the Jewish state served notice that it will demand a revision of its boundaries in final peace negotiations with the Arabs.

The intentions of the infant state were made known by Foreign Minister Moshe Shertok. He said the revision of boundaries established under the United Nations partition decision will have to be considered in view of developments.

NATIONAL FARM SAFETY WEEK

This is National Farm Safety Week. The idea for such an observance was conceived by the National Safety Council in 1944 and this Council in cooperation with the United States Department of Agriculture and other organizations interested in agriculture and farm life, have been sponsoring it ever since. Each year it has been officially proclaimed by the President of the United States.

Everyone, directly or indirectly is affected by the high loss of life and disabling injuries that occur each year on the farms. The goal of the 1948 observance of National Farm Safety Week is to eliminate at least 50,000,000 farm hazards. Therefore, it is the responsibility of everyone to eliminate a hazard which could easily result in an accident.

The home harbors many hazards causing one of the highest accident tolls in the country, and a little more thought on the part of each member of the family could reduce the high number of accidents that occur there.

What are the leading types of accidents to farm people? Falls in the home and about the farm, lead all other types of accidents. Use of ladders which are in need of repair, equipment or toys lying in one's path, broken steps, lack of hand rails, loose rugs or carpets are just a few of the many things that cause serious falls.

In the home, burns rank next to this. Use of kerosene or gasoline to start a fire is one thing that causes many serious injuries and horrible deaths. Combustible materials left standing near a source of heat, ashes placed in cardboard boxes rather than metal containers, and faulty wiring are other causes of fatalities.

The "unloaded" firearm has been the cause of many grief-stricken homes, also. The firearms should be kept unloaded at all times and always should be placed out of the reach of youngsters. Adults need some education themselves on the proper handling of guns, particularly when cleaning them, as that is the time so many such accidents occur.

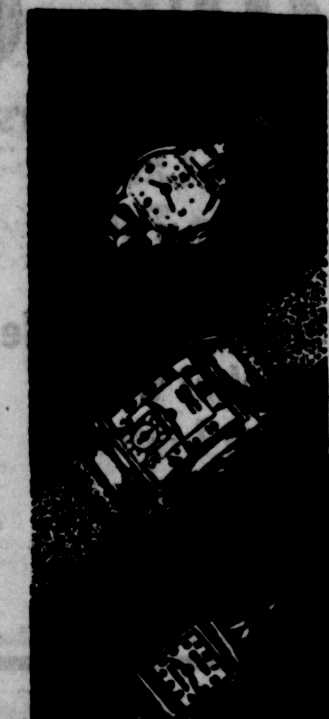

Unlabeled bottles and failure to put them out of the reach of children has resulted in poison deaths. Poisons should always be labeled and a skull and crossbones added to the label would be wise. Then youngsters can be taught to recognize such a label as one that is harmful. Poisons should not be kept in the same cupboard in which medicines and other such things are stored. Then mistakes won't be made by taking the wrong bottle from a shelf.

Leaking poisonous gas from a stove needing repair has caused too many deaths. Suffocation has come about through other means, also, particularly to youngsters. Too many or too heavy bed clothes for children results in death. Some babies have been suffocated when sleeping with adults.

Farm and home safety should be a year-round job—32 weeks—not just one. Adults need education even more than youngsters, for they can see a hazard, yet many times do nothing about it. After the accident has happened we are ready to repair. Too late. Do it now! Make the home safe place to live.

Eccles-Snyder Feud Revived

Congress Watches Controversy Over Credit Curb Against Inflation Proposals

By WILLIAM THEIS
 (U. S. Staff Correspondent)

WASHINGTON, July 30.—Congress perked up today to revival of the Eccles-Snyder feud over how to control credit as a curb against inflation.

The charge of Marriner S. Eccles, that Secretary John W. Snyder's Treasury Department blocked Federal Reserve Board recommendations last November highlighted special sessions hearings on President Truman's new anti-inflation program.

Both Called
 Eccles and Snyder were both called to appear before the Senate Banking Committee today. At the same time the House Banking Committee resumed questioning of former OPA Chief Paul Porter on Mr. Truman's new price-control bill.

Interest centered on the monetary-credit phases because it appeared to be the only point in the administration program which might get legislative action from the hostile GOP Congress.

Eccles, since deposed as Federal Reserve chairman, told the Senate group that the board's proposal for additional bank reserve requirements were "deleted" from Mr. Truman's anti-inflation message last November.

Blamed Treasury
 He blamed "the treasury" for the deletion and said: "If they did not want to support the board program against creating inflationary credit they should have had a program. They had no program."

Eccles, although still a Federal Reserve Board member, testified as "an individual."

Chairman Tobey (R) N.H., announced following Eccles' blast that he would introduce a resolution to create a national monetary commission to investigate thoroughly monetary and credit matters.

Shugart remarked that the penalty amounted to a life term for the ailing Hamble.

The accused, who had to be helped into court by a deputy sheriff, had entered a plea of guilty to second degree murder.

The slaying followed a long argument over sale of the house by Minich's wife.

Now studies reveal that the probable cause of aurora borealis, known as "northern lights", is streams of hydrogen ions or particles, swarming into the earth's atmosphere from the outside.

Rent Complaints Heard Thursday

Tenants And Landlords Pre-
sent Complaints To Rent
Administrator Agent

OTHER EVENTS IN COURT HOUSE

Tenants and landlords presented themselves in the court house Thursday to register complaints and petitions. A. J. Kelly, representative for this district heard the complaints. Mr. Kelly is in the court house every Thursday morning from 10:30 to 2.

The division between tenants and landlords was about even, Mr. Kelly said. There is comparatively little complaint about rents by tenants living in dwellings that had the rent frozen in 1945. There are some complaints from tenants living in homes not rented before the freeze and which now charge rents that by comparison are out of line. Many landlords are presenting petitions for rent increases in properties which were frozen during the war. According to a Federal survey in 1941 the average rent in New Castle then was \$23.85 per month. This was raised somewhat before the freeze in 1945 but there are still hundreds of dwellings renting for the same rent now as they were in 1942.

With taxes, coal, repairs and supplies increased the landlords find they are getting less money for their properties now than they were when the war started. Under the new rules there is some probability of rent increases in such places.

Woman Plunges To Her Death At Pittsburgh Store

PITTSBURGH, July 30.—(INS)—A woman who plunged to her death from the fifth floor of a downtown Pittsburgh department store today was identified as Mrs. Josephine B. Nettour, 48, of suburban Elm Avon.

Mrs. Nettour, social register wife of Byron W. Nettour, was the daughter of J. K. Burnett, former general manager of the Tri-State News Bureau in Pittsburgh.

Identification was made by the dead woman's 22-year-old son, Byron F. Nettour, who said he had followed his mother to Pittsburgh on a hunch "that something was wrong."

COURT SHOWS MERCY WORCESTER, Mass.—(INS)—

Justice is tempered with mercy in Worcester District Court. Special Justice J. Arthur Barnes released temporarily a 40-year-old father charged with passing a worthless check. The reason was the man had to care for his 10 children while his wife was in a hospital.

About four-fifths of Turkey's population now derive their income from agriculture.

Will Ask Dewey To Make Speech In State Campaign

HARRISBURG, July 30.—(INS)—The Republican State Committee today sought Republican Presidential nominee Thomas E. Dewey's aid in launching the GOP campaign in Pennsylvania September 11.

The New York governor will be asked to deliver a major campaign address, according to State Chairman M. Harvey Taylor.

Four years ago, Dewey opened his election bid with a speech at Philadelphia.

The biennial fall meeting will spark the Pennsylvania organization's drive on behalf of GOP nominees for state wide offices, Congress and the General Assembly. A state platform probably will be considered and a declaration of GOP principles adopted.

Taylor said the tentative agenda

Fringe Charges Police-Politicians Are In Rackets

By Pittsburgh July 30.—(INS) —L. Lawrence Maloney, head of the Pittsburgh police racket squad, will be called to testify before the grand jury now investigating charges that police and politicians are involved in Pittsburgh racket operations.

District Attorney William S. Mahoney said that Maloney will not be subpoenaed, but will be called upon as an officer of the law.

Maloney's announcement came after a stormy court session yesterday during which private investigator Al Florio refused to name his "housekeeper" informant as ordered by the court.

It was Florio's charges that rackets were running wide open in the city that prompted Mayor David L. Lawrence to order the grand jury investigation.

Among the first to be subpoenaed as witnesses by Mahoney will be three Pittsburgh newspapermen who have been covering racket stories.

Union President Held On Charges

AMBRIDGE, Pa., July 30.—(INS)—Arrest and battery charges were on the table today against Larry Laughlin Jr., president of the CIO United Steelworkers Local 1508 in Ambridge.

Miss Doreen Zagrocki, discharged secretary employed by the union filed the complaint. She charged that Laughlin pulled her down a flight of steps when she and two other girls were picketing the union headquarters in protest of her dismissal.

Laughlin fired the girl last week for alleged "immorality and lack of veracity." A membership meeting has been called on Sunday to decide on the firing.

Dayton Police Use Tear Gas To Dispel Crowd

Gov. Herbert Says State Guard
Not Likely To Be Called
Out In Situation

DAYTON, O., July 30.—(INS)—
Police used tear gas to disperse a
milling crowd of hundreds of CIO
pickets and back-to-work employees
at the Univis Lens Co. plant to-
day.

The melee—the fourth outbreak
of violence this week—reached
such proportions that Police Chief
Rudolph Wurster asked City
Manager Russell E. McClure to re-
quest National Guard troops to
help maintain order.

However, at Columbus, Gov.

Thomas J. Herbert said the guard
"probably will not be called out"
because the situation again seemed
to be well in hand. However, Col.
Richard Graham was sent to Day-
ton as an "observer."

At least 600 pickets, assembled
for mass duty from all CIO locals
in Dayton, moved in a half-dozen

lines around the circumference of
the plant, despite a still-effective
injunction limiting picketing to
three at each gate.

Jap Suicide Sub Coming To City

Captured One-Man Sub Will Be Exhibited By Local Navy Club On Monday

Under the auspices of Ship No. 16, U. S. Navy Club, one of the Navy Club's mobile units, carrying a one-man Japanese suicide submarine will be on exhibition at the corner of Mill and Washington streets Monday from 9:30 a. m. to 9:30 p. m.

There is no charge but voluntary donations will be accepted for the use of the Navy Club's extensive welfare and rehabilitation program.

The sub, known in Japan as the Koryu, is 20 feet long, and powered by specially built storage batteries. It has a cruising range of 150 miles. It was launched from a mother ship approximately 150 miles from its target, and manned by one of the suicide pilots.

This particular model was used in the naval campaign by the Japs from Okinawa until the close of the war.

Among the items shown is the famous belt of a thousand stitches, which was worn by the Japanese Marine. This belt, on display, has 999 stitches, each representing a prayer for his safety by his mother, wife, or sweetheart. There is also a complete assortment of Allied and Nazi makes of rifles, used in the last war.

Wallace Assails Truman's Actions

NEW YORK, July 30.—(INS)—President Truman stood charged today with calling Congress into special session in an effort to make it the "scapegoat" of his own inadequate and often dangerous leadership.

Henry A. Wallace, Progressive party candidate for president, accused Mr. Truman of insincerity in his proposals to curb inflation, bring down prices and end segregation in the federal government and army.

Speaking on a nationwide radio network last night Wallace challenged the chief executive to prove his peace and anti-inflation efforts are sincere by dismissing top officials in the administration.

Wallace said that President Truman has known all along that he would not win any significant legislation from the special session needed by the American people.

Solicitors Not Working For News

Citizen Warned To Be On Look-out for Solicitors Misrepresenting Connection With The News

Information has come to The News that some unknown salesman, or salesmen are soliciting householders of the city selling magazines and encyclopedias under the guise that they represent The News.

According to information received the act goes about like this. The salesman knocks at the door, asks the householder if she is a subscriber to The News and asks to come in.

After gaining entrance to the home the salesman then informs the householder he is authorized to give special premiums to News subscribers if they purchase an encyclopedia at the rate of twenty cents a week.

It later develops that before the householder can take advantage of this "bargain" she must subscribe for some magazine and the total cost runs to about \$3 per week for a year.

The News knows nothing of any such racket save from information furnished. It knows nothing about the encyclopedia, the magazine or the salesman.

The News has no agents out through the city or county soliciting subscriptions either to the paper, to any magazine or to any encyclopedia. It has never run any coupon in the paper offering reduced rates or premiums, as the solicitor sets out.

Any person selling magazines, encyclopedias or any other product from door to door has no connection whatever with the New Castle News and if the name of this paper is used it is done falsely.

Householders that are approached by any such salesman are asked to call The News immediately giving their address and action will be taken to apprehend the racketeer.

Governor Duff Sees Victory For Republicans

PHILADELPHIA, July 30.—(INS)—Gov. James H. Duff, apparently content to let by-gones be by-gones, today was ready to support Gov. Thomas E. Dewey's Presidential candidacy "enthusiastically and vigorously."

The governor, who had wrangled with the state's pro-Dewey forces for control of the Pennsylvania delegation during the Republican nominating convention, expressed his confidence of a Republican victory.

Duff attended a garden party in suburban Penryn given by Attorney Thomas Easburn White in honor of Republican National Chairman Hugh D. Scott, Jr.

The state's chief executive told reporters he was "very pleased with the enthusiasm shown by the national chairman and I entirely concur with his enthusiasm."

"I am confident we will have victory this year," Governor Duff continued, "but I believe in keeping your powder dry and, therefore, I feel the best way to secure that victory is by putting every ounce of enthusiasm we have into the fight."

"For my part, I will enthusiastically and vigorously support the ticket in Pennsylvania, and elsewhere if necessary."

Eastern Germany Anti-Communist Activity Reported

BERLIN, July 30.—(INS)—Anti-Communist Germans were reported today to have launched a campaign in eastern Germany against Russian oppression.

The British-licensed newspaper

Telegraf said that anti-Soviet pamphlets have been distributed in Leipzig by a so-called "anti-Communist action committee."

The committee has announced that it is working "side by side with all honest Leipzigers opposed to oppression and terror."

The pamphlet condemns the Russians for their "lust for power."

It asserted that a Communist terror wave now is lashing against the last fortress behind the iron curtain—Berlin.

Finally it warned that the final

aim of the Russians is enslavement of Europe. It called on the Leipzig populace to resist the Communists and back the fighters for freedom.

Mayor John F. Haven and Pro-

We're In A Buyer's Market, Says Horatius Q. McGiverty

Our friend Horatius Q. McGiverty, (of the Spring Hill McGiverty's) is a trend setter. H. Q. McG. has a nose like a bloodhound for shifts in public opinion and today he stepped in for a minute and says, says he.

"We're in a buyers' market once again. Folks are shopping for quality today. They have gotten away from the idea of taking the first thing that's offered. They want to know it's the best they can get for the money they can afford."

We're in agreement with Mr. McGiverty and darned if we aren't glad it's true. In a buyers' market folks want quality workmanship for the money they pay and quality is our guiding star.

If it's honest workmanship you want, with a price tag that is honest and fair, then you'll like our work on car repairs.

Babson Gives His Views On Stock Market Again

By ROGER W. BABSON
Copyright, 1948, Financial Post
NEW YORK CITY, July 30.—Wall Street has again turned bearish. Apparently the insiders have sold their stocks and are again waiting for the market to drop. This especially applies to the oil which Wall Street has been selling while advising everyone to hold!

Last January in my forecast for 1948 which this newspaper published, I clearly stated in paragraph 34 that the safe range (based upon the Dow-Jones Industrial Averages) to hold stocks during 1948 would be a low of 165 and a high of 185. (This was assuming no further change in the tax laws or the margin requirements.) Hence, those readers who followed my advice and sold stocks when the averages reached 185 and are thankful. Although stocks temporarily sold above 185, they made a good profit and now have the cash for later repurchasing.

The present probability is that a Republican election has already been announced and that stocks will continue to go down approaching my low of 165 after which they will move up again. Wise investors are those who wait those buying periods which usually come about once a year. As the time to sell is when most brokers are bullish, so the time to buy is when these same brokers are bearish.

Dividends and Yields

There are two reasons why I made that forecast last January. The first reason is that the value of stocks is their income yield. Food, clothing and shelter have a constant value; furniture has a use value; an auto has a transportation value; even jewelry has a show value. Unless stocks pay dividends, or hope to someday, they have very little value. "Book value" is a factor only for scrap liquidation.

Over a normal period of time the dividends paid by the Dow-Jones stocks yield about 8% when purchased at 165, but yield only 4% when purchased at 185 to 190. Or to figure it another way: a good 8% stock should sell at about 165 to yield 8%; but at 185 it would yield only about 4%. Letters from thousands of investors show they want a yield of from 4% to 8%.

Income Taxes and Book Prices

When readers show this 165-185 forecast of mine to brokers, the brokers come back with the retort: "But the stocks which I recommend to you yield more than 8% even at a 185 average price. Hence, it is reasonable to believe that the Dow-Jones Industrial Averages will go to 200 or 225." Then they also talk about the "book value" to which I refer in the beginning of the column.

Well, as I have said, book value means nothing unless accompanied by a reasonable hope of income. But the real answer to the brokers' criticism of my 165-185 range is that personal income taxes reduce the yield to investors from 20% to 30%. I grant that if we were today having pre-war income taxes, the Dow-Jones Industrials would sell at an average price of 280; but this is not now possible. I repeat that to have a net yield, after paying income taxes, of from 4% to 8% on any safe list of common stocks, the average investor can afford to buy only when the Dow-Jones Industrial Averages are under 185. As indicated above, I would change this range if the tax laws or the margin requirements should be changed; but so long as they are as they are today, readers had better depend upon my 165-185 range.

What About Russia?

There will be no war with Russia this year. However, everyone knows that there will be a World War III sometime and when this comes some of our largest cities will be destroyed. Hence, wise investors are now making the securities of companies with most of their assets in these large cities. As there are few buyers, the prices of these stocks drop badly. This same reasoning applies to certain oil companies with big refineries in vulnerable locations. The above and the disappointment of the "Dow-Theorists" are the main causes of the recent stock market slumps.

WALLET GOES HOME
ATLANTIC CITY—A wallet containing a sizable sum of money, lost on the street here, made its way back to the owner in Brooklyn through the U. S. mail unwrapped, unaddressed and unstamped.

Mrs. Ruth Dickson of Brooklyn reported that the wallet was presented to her by the postman. Money and papers were intact.

LEATHER CHAIRS
Leather chairs require a little extra attention every few months to lengthen their lives. Wipe all dirt and dust from the chairs with a damp rag and then rub with a cloth that has been dipped in white of egg, well beaten. Rub well with soft, clean cloths after the egg has dried and the leather will look like new.

MAKING EGGNOG
Eggnog is easily made by beating an egg with a teaspoon or two of sugar and a few drops of vanilla. About one cup of milk and a few grains of salt should then be added and the whole mixture beaten again. The eggnog should be served cold.

COLORFAST TEST
To check on color fastness before washing garments for the first time, test a small sample of the material by squeezing it in a tumbler of clear, lukewarm water. If the water remains clear or shows only a slight discoloration, the color is safe. As further check, press

and compare with original material. If no fading or streaking has occurred in the sample, the garment can be safely washed.

HOUSEHOLD HINTS
Never let the vacuum cleaner go for long without emptying and cleaning. The power of the cleaner

is impaired if the suction has to draw air through accumulated dust and dirt in the appliance. Knots in the thread may be avoided when hemming table lin-

on by running each needleful of thread through a piece of paraffin before using.

versity Of Pennsylvania
Next September

PHILADELPHIA, July 30.—(INS)—Former Gov. Harold E. Stassen of Minnesota will assume the presidency of the University of Pennsylvania next September. Stassen, who came out of the Navy with the rank of captain after the last war, was nominated on the unanimous recommendation of the school's executive board. He will be elected at a special board meeting in September. Dr. George W. McClelland, who has been president of Penn since 1944, will become chairman of the board of trustees. In accepting the presidency Stassen said he would continue his active interest in public affairs.

particularly those affecting peace. His salary was not disclosed.

Continued Public Activity
"As you understand, I will continue a vigorous interest in public questions, particularly those which affect the future freedom, well-being and peace of men," he wired school authorities.

"Subject to the fulfillment of my speaking schedule on behalf of Governor Dewey I will prepare to begin my duties at the opening of this university year in September."

Stassen was one of Dewey's unsuccessful challengers for the Republican presidential nomination last month.

Among the tasks awaiting Stassen is the administration of a \$3 million dollar expansion program at the university.

Meanwhile, Earl G. Harrison, a former U. S. commissioner of immigration, announced his resignation as dean of Penn's law school to return to private practice.

Red Sox Bounce Back At Tigers

Slam Detroit 8 To 1, Move To Cleveland, Braves Slay Pirates 2 To 1

By LES CONKLIN

(International News Service Sports Writer)

NEW YORK, July 30.—For those who believe in omens, the Boston Red Sox should have no great difficulty winning the American league pennant, now that they have cleared another mental obstacle.

Boston's 8 to 1 win over Detroit last night, coming on the heels of the snapping of their 12-game winning streak the day before, posed a bit of a test for the Sox. There was just a chance that their winning morale might have been impaired, and furthermore another defeat would push them back into second place again.

Move To Cleveland
Boston now moves into Cleveland all set to knock over another leading rival, the Indians, who are tied with the New York Yankees for third place.

The Sox will have to win this series to protect their slender lead, in view of the fact that the second-place Philadelphia A's will be facing second-division opposition in Detroit.

Boston's other club, the Braves, held on to their 5½-game lead over the Dodgers in the National league when Red Voiselle pitched and batted his way to a 2 to 1 win over Pittsburgh for his 11th triumph of the season.

Homer by Roy Campanella and Gil Hodges featured Brooklyn's 9 to 6 victory over the St. Louis Cardinals, sweeping the three-game series. The Cardinals dropped to fourth place.

The much-maligned pitching staff of the Giants amazed even its fondest admirers when Dave Koso blanked Cincinnati 8-0.

Little Ralph Caballero, with three hits, paced the Phillies to a 7 to 4 triumph over the Chicago Cubs.

VOLANT WINS 20TH
Volant won its 20th game of the year last night defeating the Philadelphia team, 7 to 6, behind the swell pitching of Don "Red" Young. It was Young's seventh win of the year. Kahins and Ivan Young did the heaviest hitting for Volant.

Strubel Post No. 8710, Strasburg (Lancaster county), meets Billy Simpson Post No. 470, Erie, at 2:30 p. m., DST, on Pennsylvania State college's diamond.

Around Hollywood

By RUTH BRIGHAM
(International News Service Staff Correspondent)

HOLLYWOOD, July 30.—(INS)—Everybody wants to see Roy Rogers and Dale Evans making pictures together again—everybody but Republic Studio. Certainly Mr. and Mrs. Rogers are anxious to do so. The singing cowboy, who gets more fan mail than any other Hollywood star, prefers his wife for his leading lady. Fans are always writing in, begging the leading western couple to stay that way—on the screen. But, as someone said, if

Roy had to choose between Dale on the screen and Dale in the home, he made his choice—making her his permanent hitching post!

Gloria Happy
Gloria Grahame is happy as a lark in her new marriage. The bride of Nicholas Ray, movie director, says this marriage is going to last, and she's "going to profit by the mistakes" of her last marriage. Gloria says her career definitely did not interfere last time—lack

of love did. She's expecting a baby . . .

Stars Now Writers
Hollywood writers are wondering just what to do about the movie stars writing their own stories these days. So many toes have been stepped on, and so much bread left unbroken, that looks as though there'll be an official beef. Gene Kelly got \$40,000 for his writing on "Take Me Out to the Ball Game"—so now June Allyson

has gotten down to work and come up with "Footlights and Fancy," which she hopes to sell a studio . . . slightly autobiograh.

This And That
Ingrid Bergman is one of the richest women in Hollywood. She always owns a large hunk of her movies. Dixie Crosby may be the only women member of the Bing Crosby household but she holds her own—and sees that the boys remember she's got glamour.

Every time one comes in and comments on a pretty girl, Dixie asks: "Prettier than me?"

To date, the answer is no. James Mason has signed for his first American film, "The Best Things in Life Are Free"—formerly titled "The Luckiest Girl in the World". He'll get 150 grand for his role of a doctor.

FISH FILLETS
Fish filets that are to be baked or broiled may be brushed with mayonnaise first.

Brass Ensemble At Portersville Rally

PORTERSVILLE, July 30.—The Bob Jones university brass ensemble will be featured at the Youth for Christ service in the U. P. church Saturday evening at 8 o'clock. The group comes from five different states and represent the university which is located at Greenville, S. C. A most unusual musical program

is presented with the members not only offering quartet numbers, but also solos, duets and trios. Many difficult selections will be played by the instrumentalists. The service will be directed by Walter Bauder.

IT'S THE TRUTH
SCHENECTADY, N. Y.—A printer voiced the sentiments of millions today while setting type for a General Electric Co. handbook on nuclear physics. One page describing the GE atom-smashers was headlined: "Unclear Physics".
